OBSERVATION HOURS

A minimum of 30 in-person hours of occupational therapy-related experience or observation is required. We encourage applicants to visit different sites to experience the diversity of OT practice. Activities such as volunteering as a camp counselor for children with disabilities or working as an aide at an assisted living facility count toward this requirement as they provide exposure to populations that interface with occupational therapists. It is strongly recommended, but not required, that a portion of the hours include observation with one or more occupational therapists.
